

Curriculum vitae: Mónica Vergara Araya

Address and contact data

Mónica Vergara Araya
MSc. Biotechnology, Biochemical engineer

Magdeburg-Stendal University of Applied Sciences
House 6, office 2.22
Breitscheidstr. 2
39011 Magdeburg
Germany

Phone: +49 391 886 4547
Email: monica.vergara-araya@h2.de
URL: www.h2.de/abwassergruppe

Work Experience

- since 05/2017 **Research assistant** at the Magdeburg-Stendal University of Applied Sciences, Department Water, Environment, Construction and Safety. Magdeburg, Germany. Optimization of environmental process systems. Modelling and simulation of wastewater treatment systems. Participation in the acquisition, application and processing of research and development projects in urban water management. Teacher of the master courses "Wastewater and Sludge Treatment" and "Environmental process engineering: Anaerobic technologies". Collaboration in international projects (e.g. Chile, Cuba, China). Supervision of student thesis/work in the wastewater field.
- 07/2016-10/2016 **Research assistant** at the Mannheim University of Applied Sciences, Faculty for Biotechnology. Mannheim, Germany. Optimization of the laboratory "Practical course of reaction engineering", Modelling of residence time and oxygen transport in bioreactors.
- 12/2015-05/2016 **Master student** at the WWTP BASF SE. Ludwigshafen, Germany. Operation of a membrane bioreactor (MBR) pilot plant for industrial wastewater treatment.
- 09/2013-11/2015 **Research assistant / Master student** at the Karlsruhe Institute of Technology (KIT), Institute for Technology Assessment and Systems analysis (ITAS). Karlsruhe, Germany. Sustainable water, waste and energy management in decentralized systems. Focus: wastewater, biowaste, biogas, environmental engineering.
- 06/2011-07/2013 **Process Engineer** EDAS Ltda, WWTP "La Farfana". Santiago, Chile. Operation and control of the WWTP. Lead engineer and supervisor of international research projects with technology centres and universities. Main responsible for the anaerobic digestion pilot plant.
- 01/2011-03/2011 **Intern** at the University Valladolid, Department for Chemical Engineering, Process and Environmental Technologies (IQ). Valladolid, Spain. Developing of mass balances of Sulphur, Carbon and biogas. Operation and control of the pilot plant for anaerobic digestion.
- 12/2009-01/2010 **Intern** at CODELCO Chile, Division "El Teniente", Unit for Risks and Environment. Rancagua, Chile. Study for the reuse of used lubricating oil as boiler fuel.

Education

- 09/2014-05/2016 **MSc in Biotechnology**, Focus: Bioprocess Development. Mannheim University of Applied Sciences. Master thesis at WWTP BASF SE, Ludwigshafen, Germany.
- 09/2013-03/2014 **MSc „Clean Development Mechanism and Energy Efficiency”**
- 04/2011-12/2011 Pontifical Catholic University Valparaíso (PUCV), Valparaíso, Chile. Master thesis at the Karlsruhe Institute of Technology (KIT), Institute for Technology Assessment and Systems analysis (ITAS), Karlsruhe, Germany

- 08/2012-12/2012 Course “Bio-business, economy in the field of Biotechnology” at the Pontifical Catholic University Valparaíso (PUCV), Valparaíso, Chile
- 03/2005-05/2011 **Bioprocesses / Biochemical Engineer** at the Pontifical Catholic University Valparaíso (PUCV), School for Biochemical engineering (EIB). Valparaíso, Chile. Thesis at the University Valladolid, Spain and WWTP “La Farfana”, Santiago, Chile.

Prizes and recognitions

- 2012 Prize „*Ingeniero Carmen Gloria Arévalo*”, Best Thesis of the School for Biochemical engineering in 2012
- 2005 Scholarship for first-year students, for students in the highest positions of the admission ranking
